

Fabio Battaglia

LEAD SOFTWARE ENGINEER ·

68 Avenue du Dix Septembre, 2550 Luxembourg

📞 (+44) 750 383 1291 | ✉️ fabio.battaglia90@gmail.com | 📅 22-Sep-1990 | 📱 farbiondriven | 🌐 farbiondriven | 🌐 fabiobattaglia90

Work Experience

Spire Global

Luxembourg, Luxembourg

SENIOR SOFTWARE ENGINEER

Dec. 2022 - Present

- Design and development of ground side tools to handle satellite constellations;
- Development of Microservices using **FastAPI, Flask, PostgreSQL, Terraform, Docker, Kubernetes, Github CI/CD actions**;
- Leading a development project co-funded by the European Space Agency (ESA)

Remark AI

London, United Kingdom

LEAD SOFTWARE ENGINEER

Sep. 2020 - Oct. 2022

- Design and development of an application for thermal scanning, mask wearing recognition and **face recognition** using thermal or basic network cameras;
- Development of Microservices using **Flask, FastAPI, C++, MongoDB, MySQL, GraphQL, Kafka, Traefik, Docker, Kubernetes, Gitlab CI/CD Pipelines deploying in AWS or on-premise installations**;
- Integration of AI Pipelines developed using **DeepStream** framework using C++, Python and Kafka;

Amadeus

London, United Kingdom

SENIOR SOFTWARE ENGINEER

Sep. 2017 - Sep. 2020

- I joined the department developing Amadeus Altéa Departure Control System (DCS), a software suite which addresses Departure Control activities and Customers Management, supporting the whole passenger flow from Check In to Boarding;
- Design and Development of server applications using **C++ 11**;

XiD Technologies

Singapore

SOFTWARE ENGINEER

Feb. 2015 - Aug. 2017

- Design and Development of applications connecting 3rd party devices performing Face and Fingerprint recognition to **XiD FaaS system, integrating Hanvon, ZK, Suprema** with custom Business requirements;
- Integrated Fingerprint and RFID Security System and CCTV for **Changi Airport Terminal 5 construction**, providing real-time screen alerts, anti-passback, WP expiration functionalities;

ENEA

Rome, Italy

CONTROL SYSTEMS ENGINEER INTERNSHIP

Jun. 2014 - Oct. 2014

- Research for Nuclear fusion technologies. Using MATLAB and C++ I built a real-time heat distribution monitoring tool;

High School Concetto Marchesi

Catania, Italy

ROBOTICS TEACHER

Mar. 2014 - Jun. 2014

- Teaching as a Robotics Expert to a class of 20 High School students for an afternoon class, project financed by EU PON;
- Theory lessons covering basic concepts of Robotics, Electronics, Programming, Cinematics, Control systems;
- Hands-on sessions building an auto-orientating PTZ camera using Arduino, Servomotors, light sensors and a webcam;

Education

University Of Catania

Catania, Italy

MASTER'S DEGREE IN AUTOMATION ENGINEERING AND CONTROL OF COMPLEX SYSTEMS

Apr. 2012 - Oct. 2014

- Studied **Control Systems, Bioengineering, Image Processing, Industrial Processes and automation, Sensors technologies and data acquisition, Robotics basics and Behavior analysis**;
- Thesis: **"Frascati Tokamak Upgrade: New Trends In Model Identification Of Specific Thermal Phenomena"**
- Final Mark: 110/110 cum laude with special mention;

University Of Catania

Catania, Italy

BACHELOR'S DEGREE IN COMPUTER ENGINEERING

Oct. 2008 - Mar. 2012

- Studied **Mathematics, physics, electronics, networking, software engineering, Operative Systems, C/C++/Java and Assembly languages, Databases, Control Systems**
- Thesis: **"NetFPGA Architecture and Hardware Description"**

Skills

Programming Languages

C/C++ (03,>11), Python3, Typescript, Rust, C#, Java, Matlab, Latex

Python

FastAPI, Pydantic, Flask, SQLAlchemy, Pymongo, Pytest, MyPy

Frameworks

OpenCV, Tensorflow, FFMPEG, GStreamer, Boost, Android SDK

Version Control

Git on Gitlab, Github, Bitbucket. Mercurial, SVN

Database

PostgreSQL, MySQL, Oracle, Microsoft SQL, SQLite, MongoDB

DevOPS

Docker, Docker-compose, Terraform, Kubernetes, Github Actions, Gitlab CI/CD pipelines, Gitlab Runner, Jenkins
